Deresegn POS - Data Classification

1. Types of Data Handled

1.1 Personal Data

Data Element	Location	Collected From	Example
Owner Name	Backend DB (company_users)	Company Registration	"Amanuel Teferi"
Phone Number	Backend DB (company_users, company_branches)	Registration/Login	"+251947990585"
Email Address	Backend DB (companies, company_branches)	Registration	"amanuielt@mssethiopia.com"
Buyer Name	Backend DB (mor_invoices), Mobile App (invoice form)	Invoice creation	"Abebe Kebede"
Buyer Phone	Backend DB (mor_invoices)	Invoice creation	"+251911234567"
Buyer Email	Backend DB (mor_invoices)	Invoice creation	"buyer@example.com"

1.2 Financial Data

Data Element	Location	Description	Example
Invoice Amounts	Backend DB (mor_invoices), Mobile App	Transaction totals, tax amounts, discounts	5750.00 ETB
Receipt Amounts	Backend DB (mor_receipts), Mobile App	Payment amounts collected	5750.00 ETB
Tax Information	Backend DB, Mobile App	VAT, TOT, Excise values	VAT 15%: 750.00
TIN Numbers	Backend DB, Mobile App (secure storage)	Tax Identification Numbers	"0000037187"
VAT Registration Numbers	Mobile App (settings)	Seller VAT number	"VAT-12345"

1.3 Authentication / Session Data

Data Element	Location	Description	Sensitivity
Passwords (hashed)	Backend DB (company_users, company_branches)	Bcrypt-hashed passwords	High
JWT Tokens (Branch)	Mobile App (flutter_secure_storage)	Branch authentication tokens	High
JWT Tokens (Company)	Mobile App (flutter_secure_storage)	Company owner tokens	High
MoR Access Token	Mobile App (flutter_secure_storage)	Ministry of Revenues API token	High
MoR Refresh Token	Mobile App (flutter_secure_storage)	Token refresh credential	High
MoR Client ID	Mobile App (flutter_secure_storage), Backend DB (company_branches)	API credential	High
MoR Client Secret	Mobile App (flutter_secure_storage), Backend DB (encrypted)	API credential	Critical

Data Element	Location	Description	Sensitivity
MoR API Key	Mobile App (flutter_secure_storage), Backend DB (encrypted)	API credential	Critical
Private Keys (.key files)	Backend filesystem (storage/app/)	RSA private keys for payload signing	Critical
Certificates (.pem files)	Backend filesystem (storage/app/)	X.509 certificates	High
HTTP Cookies	Mobile App (file system)	Session cookies	Medium

1.4 Business Data

Data Element	Location	Description
Company Names	Backend DB	Legal business names
Branch Names / Locations	Backend DB	Branch identifiers and addresses
Product Catalog	Backend DB (supplies)	Item codes, descriptions, prices, tax codes
Invoice Payloads	Backend DB (mor_invoices, mor_invoice_audits)	Full request/response data
Signed QR Codes	Backend DB (mor_invoices)	MoR-generated signed QR data
IRN Numbers	Backend DB (mor_invoices)	Invoice Reference Numbers

2. Sensitivity Levels

Data Category	Sensitivity Level	Justification
MoR Private Keys & Certificates	Critical	Compromise allows forging of fiscal documents
MoR Client Secret & API Key	Critical	Enables unauthorized API access to government systems
Passwords (hashed)	High	Authentication credentials
JWT Tokens	High	Active session tokens
MoR Access/Refresh Tokens	High	Active government API session
TIN Numbers	High	Tax identification - regulated PII
Personal Names, Phones, Emails	Medium	Standard personally identifiable information
Financial Amounts & Tax Data	Medium	Business-sensitive financial information
Invoice Payloads & Audit Logs	Medium	Contain mixed personal and financial data
Product Catalog Data	Low	Non-sensitive business data
Theme Preferences	Low	User preference, no security impact
Company/Branch Names	Low	Publicly associated with TINs

3. Applicable Regulations

Regulation / Standard	Applicability	Description
Ethiopian Revenue Proclamation	Mandatory	Governs e-invoicing compliance, fiscal document integrity, and digital signature requirements
Ethiopian Data Protection Proclamation (1249/2021)	Applicable	Governs collection, processing, and storage of personal data
Information Network Security Agency (INSA) Guidelines	Applicable	Cybersecurity standards for information systems operating in Ethiopia
PCI DSS	Not Applicable	No direct credit card processing or storage

Regulation / Standard	Applicability	Description
GDPR	Not Directly Applicable	No EU citizen data processing (may apply if EU buyers are served)

4. Data Storage Summary

Figure: Data Storage Architecture

5. Data Retention

Data Type	Retention Policy
Invoices & Receipts	Retained indefinitely (regulatory requirement)
Audit Logs	Retained indefinitely
JWT Tokens	Cleared on logout or session expiry
MoR Tokens	Cleared on logout or refresh failure
Offline Queue	Cleared after successful sync
Product Catalog	Retained until explicitly deleted by user
